Childhood Cancer International EUROPE

Why that matters

No. 1

Cause of death by disease in children aged +1 year.

1 out of 300

newborns will develop cancer before turning 20.

6000

young people die each year of cancer in Europe.

20%

is the survival gap across Europe, depending on where a child lives.

2 out of 3

survivors have late effects of the cancer and its treatment, impacting the quality of life of those affected.

Stronger together, for everyone affected by childhood cancer!

Vision

A world where everyone affected by childhood cancer is supported and able to thrive free from lasting impact

Mission

CCI Europe unites and represents the European childhood cancer patient community to drive change that improves lives.

We empower our members to amplify their individual and collective impact.

We mobilise our community and coordinate joint actions to tackle our common challenges together.
